Home Dictation Routine

Home dictation will be completed **every two weeks**.

1. **Read and Practice**
   A PDF containing the dictation text will be provided. Students should read the text carefully and practice reading it before the dictation.
2. **Listen and Practice**
   Two audio files will be provided:
   - **Audio 1:** The text is read at a regular speed for listening and reading practice.
   - **Audio 2:** The text is read at a slower speed and should be used for the actual home dictation.
3. **Write the Dictation**
   The student should play the slow-speed audio to dictate the text. The student writes the sentences in the **dictation copybook**.
4. **Correct the Dictation**
   The parent or adult checks the student's work against the PDF and marks any incorrectly written words.
5. **Rewrite Incorrect Words**
   Students must rewrite each word they spelled incorrectly to practice the correct spelling.
6. **Bring the Copybook to School**
   The dictation copybook must be brought to class and **shown to the teacher every following Thursday**.
